

Evren Eryurek, PhD

**General Manager Global Rail Operations
GE Infrastructure - Transportation
Melbourne, Florida**

Evren Eryurek is General Manager of Global Rail Operations, which serves the rail and transit industries. Products and services include freight and passenger control system applications for train dispatching and information system applications for passenger information services.

Located in Melbourne, Florida, the Global Rail Operations business employs over 200 employees also in Canton, Massachusetts, and Welwyn Garden City in the United Kingdom.

Evren joined GE - Transportation in December 2005 to lead the dispatching and information system solutions side of the business. Previously, he served in several leadership positions during his 11-year tenure at Emerson Process Management. Previously he served as Director of Technology and was responsible for developing new strategic growth programs and products for process control systems and devices.

Evren is a graduate of the University of Tennessee, where he earned a master's and doctorate degree in Nuclear Engineering.

He is married to Melissa Stephens and has two children, Devrim and Derin.
