

Mano Mannoochahr

SVP/Chief Information Officer, GE Transportation

Mano Mannoochahr is Chief Information Officer for GE Transportation. In this role, Mano leads the global Information Technology team, which is building and deploying digital-technology tools that are transforming the Transportation business and driving customer outcomes. He leads all aspects of Information Technology, including implementation and support of ERP Systems, Supply Chain, Manufacturing, Engineering, Commercial, Services, Infrastructure/Data Centers, Architecture and Information Security.

Prior to assuming the CIO role for GE Transportation business, Mano was Chief Data and Innovation for GE - responsible for data, analytics and emerging digital technologies across the enterprise. The role included ensuring GE has a solid foundation for managing company-wide data effectively, developing strategies and executing programs to deliver business outcomes, and up-skilling GE employees to compete in an increasingly digital world. Prior to this role, Mano was the Chief Information Officer/CIO for GE Energy Connections, an \$11B business within GE.

Before joining GE in 2016, Mano was the Global Director of Data, Analytics and Digital Innovation for John Deere. In that role, he led all aspects of the Data & Analytics journey for John Deere, including strategy and execution on key initiatives. Prior to that, he led development and delivery of Digital Solutions for John Deere customers worldwide under the John Deere [FarmSight™ Strategy](#).

Mano holds a BS in Computer Engineering from the University of Kansas and an MBA from Northwestern University, Kellogg School of Management.
